

## **KATIE'S SAVE**

Katie's Save is a University Policy designed to enable and require the institution to send an email notification to an adult *Designated Advocate of the student's choice* regarding instances when the student is involved in a situation addressed below that could evolve into challenging circumstances where they may need extra guidance and support. Katie's Save will provide a common-sense option for a conversation with their Designated Advocate with the intent that the student does not feel or remain isolated when navigating difficult scenarios. This option for change is made in honor and loving memory of Stanford Women's Soccer Goalkeeper, Katie Meyer - with the ultimate goal of supporting, protecting and saving students in the future.
